Unveiling Innovation
Redefine Packaging

Our Vision

Our aspiration is to achieve global recognition for our integrity, honesty, transparency, and reliability as the preferred partner in the packaging industry. We are committed to elevating our associates to new heights by recognizing and rewarding their exceptional contributions.

Our Mission

To deliver unparalleled quality products, exceptional services, and timely deliveries at cost-effective rates, while maintaining our commitment to continuous innovation. Our dedication to forward-thinking and responsiveness drives us to constantly improve and redefine industry standards. Our goal is to establish ourselves as the premier choice among packaging suppliers.

ISO 9001 : 2015 CERTIFIED

Established in 1994, "Secure Polymers Pvt. Ltd." has firmly positioned itself as a leader in two distinct realms of the packaging industry. With a rich history spanning over two decades, Secure Polymers Pvt. Ltd. has not only excelled in PET (Polyethylene Terephthalate (PET) & PP (Polypropylene) strapping but also emerged as a premier producer of Flexo Labels.

In the realm of label manufacturing, Secure Polymers Pvt. Ltd. has set the benchmark for quality and innovation in India and the Middle East. Their journey is a testament to their unwavering commitment to excellence, evident in their relentless pursuit of cutting-edge technologies and dedication to enhancing their clients' brands. From Pressure sensitive to wrap around labels, Secure Polymers Pvt. Ltd. offers a diverse array of label solutions meticulously crafted to meet the unique needs of various industries. Their team of seasoned professionals ensures that each label produced is a masterpiece of precision and aesthetic appeal, effectively embodying the essence of the brand it represents. Clients can rely on Secure Polymers Pvt. Ltd. for top-notch quality, personalized attention, and timely delivery, making them the preferred choice for businesses seeking unparalleled label printing services in India.

Simultaneously, Secure Polymers Pvt. Ltd. has established itself as India's foremost manufacturer and exporter of PET strap and PP strapping. Operating state-of-the-art extrusion lines equipped with integrated quality control and testing systems, they ensure unmatched quality in every product. Their commitment to excellence is further reflected in the meticulous selection of top-grade raw materials, resulting in the fabrication of superior PET strap and PP strapping solutions.

In essence, Secure Polymers Pvt. Ltd.'s journey is marked by a steadfast dedication to excellence, innovation, and customer satisfaction, positioning them as a true leader in both flexographic label manufacturing and PET/PP strapping solutions.

Flexographic Labels

Where innovation
meets functionality
in the realm of labeling
solutions.

Flexographic printing has long been hailed as a cornerstone of the labeling industry, offering a multitude of advantages ranging from vibrant color reproduction to cost-effective mass production. With our expertise in flexographic technology, we bring to you a comprehensive array of labeling solutions tailored to meet your unique needs and elevate your brand presence. Crafted with precision and care, our labels are designed to enhance your product's packaging and strengthen your brand identity.

No matter if you're in the food and beverage industry, pharmaceutical sector, or any FMCG sector, our expertise in flexographic labels guarantees unmatched quality labels tailored precisely to your needs. Whether you're a small business aiming to make a significant impact or a multinational corporation looking to streamline your labeling process, our flexible and customizable solutions are crafted to surpass your expectations. Discover the difference that flexographic labels can make for your brand, where quality, reliability, and innovation seamlessly converge.

PET Strap

Why Choose Secure for PET Strap?

Our PET strapping is manufactured using premium-grade materials and cutting-edge technology, guaranteeing exceptional strength, durability, and reliability. We understand that every application has unique requirements

Our customization capabilities allow you to tailor the strapping solution to your exact specifications, including width, thickness, and color. Our team of industry experts is here to help you navigate these choices and ensure you select the perfect strapping solution for your needs.

Secure Polymers offers high-tensile strength strapping solutions specifically designed for heavy-duty applications. These straps are built to withstand even the most demanding environments, ensuring maximum strength and stability for your products. They resist elongation and tearing, so you can be confident your products will remain securely fastened during storage, transit, and handling. Whether you're dealing with heavy machinery, building materials, or other substantial goods, our high-tensile strength strapping provides the reliable performance you need.

Applications:

Palletisation:

- Film Rolls
- Bottles
- Clay Building Bricks

Industries:

- Automobile
- Steel
- Glass
- Shipping
- Stone

Basic Metals:

- Lead ingots
- Metals Sheet
- Rods
- Pipes

Agriculture:

- Roofing Tiles
- Timber
- Chipboard
- Plywood

Bales:

- Man-made fiber
- Cotton
- Jute
- Coir
- Rubber

Polypropylene (PP) Strap

Fully Automatic & Semi Automatic Strapping

PP strapping delivers on both strength and durability, making it ideal for bundling, reinforcing packages, or closing containers. This versatile solution works seamlessly with a wide range of packaging machines, ensuring a smooth and efficient application process. Furthermore, PP strapping comes in various widths, thicknesses, and even colors to perfectly match your needs. You can even take it a step further and customize your straps with specific colors or printed designs. With its combination of affordability, versatility, and machine-friendliness, PP strapping is the clear choice for your light-duty packaging needs.

Benefits

- Cost-Effective
- Versatile Applications
- Machine Friendly
- Secure Hold
- Safer Handling

Applications

- News paper & other stationeries.
- Electrical Appliances.
- Pharmaceuticals.
- Allied Engineering Products.
- Welding Electrodes & Explosive.
- Textiles Industries & so many such varied industries.
